

1

Go to the Scratch at <https://scratch.mit.edu/>

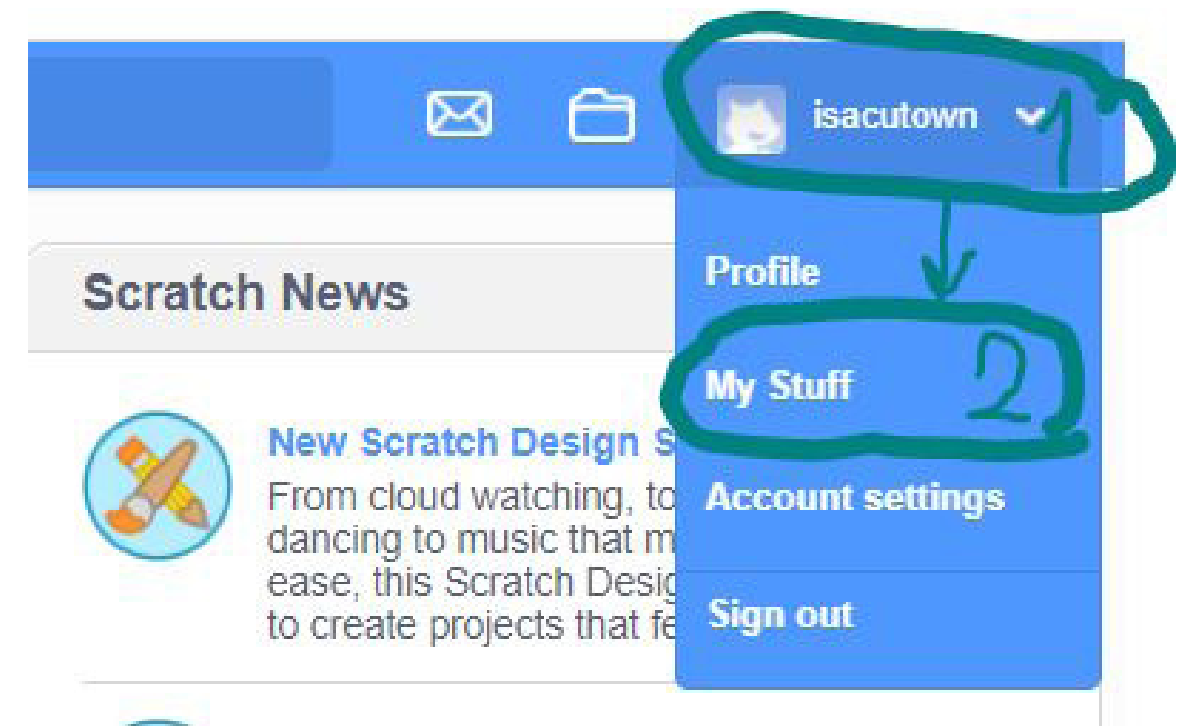

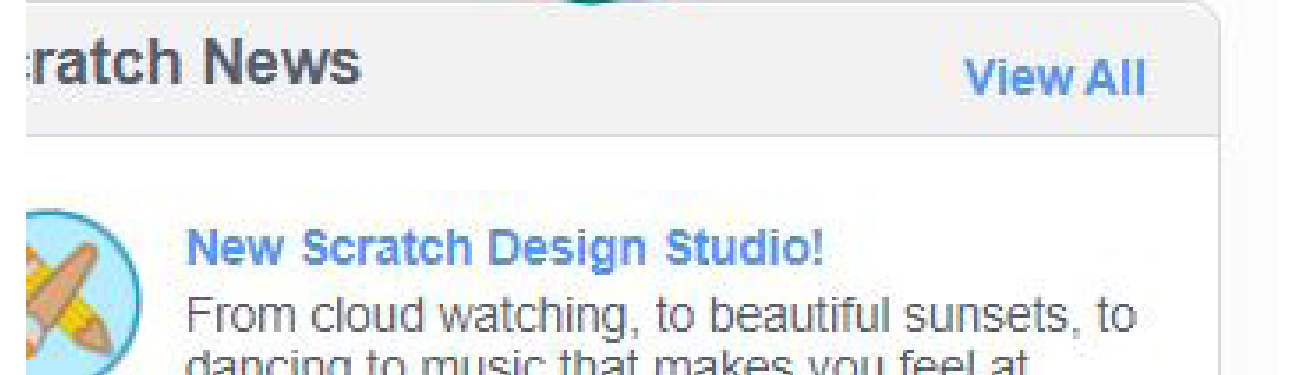

2

Sign into your account.

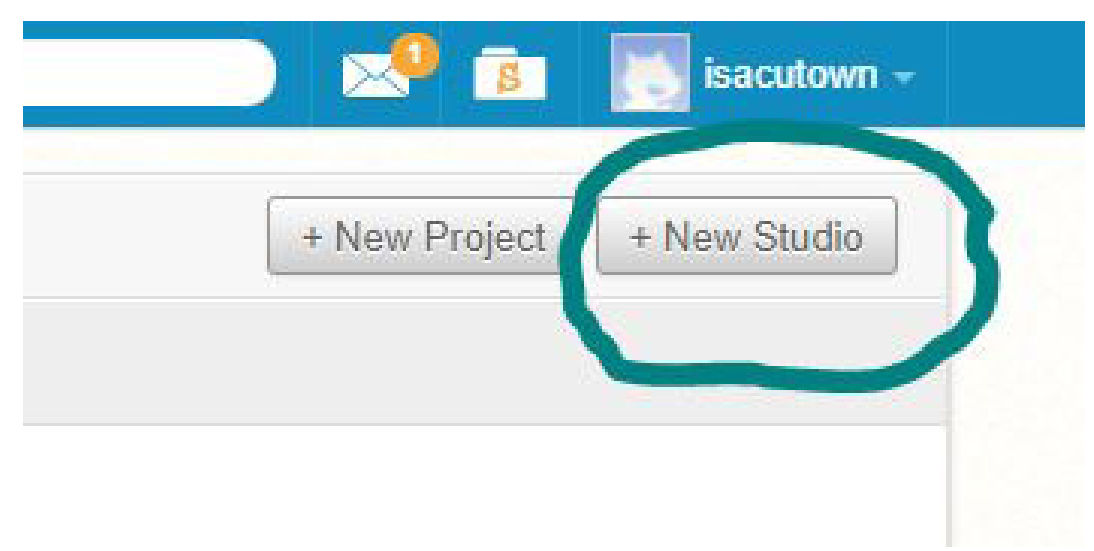

3

3. Tap on the "Folder" button on the top right corner next to your user name. Alternatively, you may tap on your username to expand the drop down menu and select "My Stuff" link.

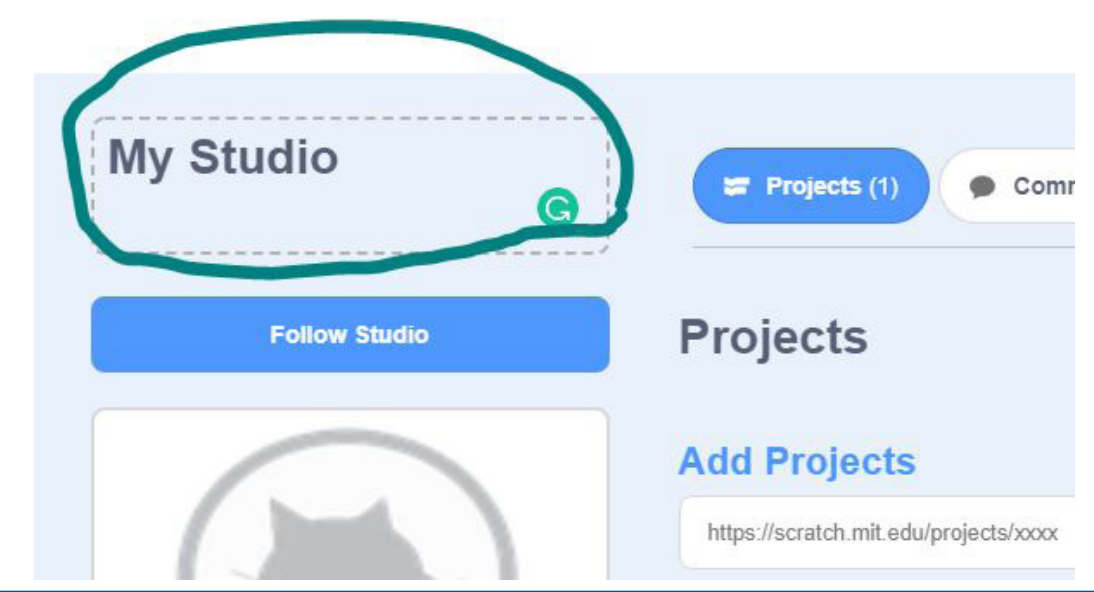

4

Tap on "New Studio" button to create a new studio.

5

Tap on the "Untitled Studio" name of your studio to change the name.

6

Tap on "Browse Projects" to list Scratch projects you already created and shared, select one of these projects, and tap "Done" icon to add the selected project into your new studio.
